Too Damn late on
THURSDAY 7/23/99

Dear Harold + Lil,

I bet the both of you are very pleased to be back in each others company! God willing, things may settle down for awhile for you both have gone through a tough time!

Harold, thankyou for the reply to my letter. An interview would be most cautiously approached on my part. There are many questions I need to ask, and constructing those questions so as to cover all facets is something that will require my time and attention. I would like to have if possible your wife's input, as she is so much a part of everything you have done. Lil, you are Harold Weisberg as Harold Weisberg is you. Your labor in this endeavor with your husband is of equal importance!

A good start would be your careers prior to the second World war. It is important that readers understand the background in investigation and the diligence with which you exhibited in your work. Obviously, the work in the Senate, O.S.S. and various other cases should be given attention.

As to Kennedy, Warren Commission and subsequent work We shall be more specific and dig right in. This should captivate both the learned and the layman. Too many people have glossed over the

real meat of the matter for quick fix style silly conspiracy theory babble. Harold, Sil, many an average folk ask me about the truth about Garrisons charade and the Oliver Stone quasi ego documentary J.F.K.. Most are somewhat shocked and disappointed to hear that I only see one positive point in Stones picture, and that is the renewed interest in the event, not the movies content! I want those who are interested to hear it from you! I want recollections of dealing with Garrison, Alcock, Bethel and the other cast of characters. Let us touch on what really happened from Lardner to Harry Connick Sr. What exactly did Garrison have? What did he not pursue? Such as the pamphlets being picked up by a separate person other than Oswald! Was Marcello involved at all? Was Russo ever in the company of Ferrie, Shaw, or any of the so-called Conspirators? What is Harold Weisbergs idea or view on 544 Camp st? Was Bannisters boy Jack clued in to anything? What did the Anti Castro cubans do with Bannister. Who really was Mas ferrer? What went on if anything at the Reilly Coffee company?

Harold as you are seeing, there are many, many questions on only one facet of your work. We still have Warren Commission, FOIA battles, F.B.I. & dealings

Sesars work, Hunt family, particularly Rothermel, ~~John~~ Johnson, Bobby Baker Billie (died allday) Estes. Marina Oswald Marguerite Oswald, Robert Oswald, Earl Ruby, Zapruder, Willis, Tague, Wachy old Jean Hill, Dallas police, Doctors military intel. Sippit, and of course Lee Harvey ~~Hunt~~ himself. Harold allow me time to construct this. You will have total control of final draft.

Also lets look at Fensterwald Ray, Rays makeup (psychological) at all aspects of the case lets look at Dwyer the Judge and the personal threat you received. Lets explore the paranoia surrounding the cases. Cant forget My buddy Nick Katzenbach - ha! ha! Finally lets look at others - and their work or lack of it, the posers, the pretenders, the wachos. Then lets talk about where it is now. Your health, both of you. and what you've gotten from your lives! ..... too much to ask for?

By the way Garrison did not come up with David Sanchez Morales name a tip came in. He blew it! Harold this man was a valid right wing nut! He definitely whacked Che' Guevera and Allende' along with others, He admitted complicity to his lawyer twenty five years ago in J.F.K. His resume is frightening! no conclusive evidence yet or probably ever.

I find you outline takes much too much
time, much of it deals with what are called
theories and I have nothing to do with them
besides which most of them come from people
who have inadequate command of the
~~of the subject~~ the subject
matter. Will be glad to see him
but only on the established fact
He is still working altho he has
less time for it
